ONLINE EXAM PREP SERIES

LEED Green Associate

Four individual sessions will be held on **March 7, 14, 21, & 28**. Each session is 2 hours in length.

1-3 pm EST

March 7: Introduction to Green Building; LEED and the LEED process; Sustainable Sites

March 14: Water Efficiency; Energy & Atmosphere

March 21: Materials & Resources; Indoor Environmental Quality

March 28: Innovation in Design / Regional Priority; LEED Synergies; LEED Green Associate Exam Review

This class series will be delivered live via VirtualClassroom e-Learning. You will receive the same content as you would in the classroom, with a live instructor, in real time, via the internet. A high speed internet connection and speakers or a headset are required.

Cost of the course is \$250

The fee also includes the following:

- *Access to 7x100 practice exams for 90 days
- *MP3's of Green Associate main topics
- *Our Study Guide in a PDF format
- *Access to LEED experts for follow up questions via online forum
- *Recorded class sessions for 60 days after final course
- *Certificate of Completion (qualifies you)

WHAT IS THE LEED GREEN ASSOCIATE?

An offering of the U.S. Green Building Council's LEED 2009 v3 updates is the Green Associate (GA) credential. The credential will make individuals substantially more marketable to clients, as it will confirm your knowledge about the green building industry and commitment to sustainability. To pass the GBCI (Green Building Certification Institute) exam, that awards professional accreditation, requires a level of fundamental knowledge relating to LEED core concepts and strategies. The Green Associate is now designated a Tier 1 accreditation and must be completed prior to becoming a LEED Accredited Professional (LEED AP+). At present, the 100 question, multiple-choice, computer-based exam is expected to take up to two hours.

ABOUT THE LEED GREEN ASSOCIATE ONLINE CLASS SERIES

The online course covers a variety of sustainability topics, green building best practices, and LEED fundamentals. The course topics are tailored to assist industry professionals in understanding the key concepts of LEED and the essentials to pass the Green Associate exam. Enrolled participants receive comprehensive training as it relates to the LEED Rating Systems, green building design concepts, and project strategies. Instructors also provide an overview on recommended study methods, exam-taking skills, and practice questions for the LEED Green Associate professional credential exam.

WHO SHOULD ATTEND AND WHY?

The course targets a broad range of audiences so that anyone can understand the content, and go on to pass the GA exam. Property Managers, Building Engineers, Contractors, Vendors, Asset Managers, Contractors, Developers, Architects, Designers, Building Owners, Engineers, Energy Industry Professionals, Manufacturers, Suppliers, Legal Counsel, and Planners are all encouraged to attend.

ABOUT THE INSTRUCTORS

Charlie Cichetti, LEED AP BD+C, ID+C, O+M, Homes, is co-founder and Principal of Sustainable Investment Group (SIG). He has over 11 years of experience in commercial construction, real estate development, consulting, and project management. Charlie has worked on many successful LEED and Energy Star projects and is a sought after trainer and speaker on sustainability topics.

Jason Kiefer, LEED AP BD+C, ID+C, O+M, Homes, holds a degree from Georgia Tech in Building Construction. He has widespread experience instructing LEED credential preparatory courses and consulting on various LEED projects. His skills include sustainability research, existing building analysis, and strategic planning for integrated design, construction & operations.

Alyson Laura, LEED AP BD+C, O+M, holds a degree in Architecture from the Georgia Institute of Technology. She is a LEED project manager and has reviewed over 300 LEED applications for GBCI. Alyson celebrates a commitment to sustainability in her personal life by teaching yoga, commuting on bike and public transit, and volunteering with Trees Atlanta to restore the urban tree canopy in Atlanta.

Ashish Bagle, LEED AP O+M, holds a degree in Business Management from the Terry College of Business at the University of Georgia. He began his career in the facilities and electrical preventative maintenance industry, which developed into a passion for operational sustainability. He is currently a project manager on SIG's LEED certification projects.
